

Bible Memorization

Here you find methods on how to memorize Bibleverses as fast as you've never memorized them before. For a [good Software](#) that helps you memorize - you may want to try <http://scripturetyper.com> or other [Spaced Repetition Systems](#) such as e.g. [Anki](#). Combine them with Mnemonics and store the information as picture-loaded as possible in [Memory Palaces](#) and you'll probably almost never forget them anymore if your [Mnemonics](#) device you used was very good. I recommend you inform yourself first about [Memory Palaces](#) or [Learning in General](#) and then try first the Video-Course below on memorizing the book of James (one Version is with the KJV and one is with an other Translation, choose the one you want to memorize) or just start first with memorizing the 66 Books of the Bible. Mnemonics is all about connecting the new Information you want to learn with something you already know and thus you can grasp it a lot better and you'll less likely forget the new information again.

IMPORTANT NOTE: Make sure you memorize the CORRECT version of scriptures. **Make sure you memorize the original and NOT scriptures, which have been affected by the Mandela-Effect.** Here you can find [scriptures, that have been changed because of the Mandela-Effect](#). (also in your printed Bibles you have at home - AFTER their print-date!) The changes in Bible-Translations seem to have begun in the Beginning of April 2016. Stay up to date with the RSS-Feeds that are provided on the [Mandela-Effect Wiki](#) (note, Wikipedia, Reddit, Google trends, Archive.org seem to all either censor this topic or they tamper information related to it)

PS: Here you can find a checklist for reading the Bible:

<http://www.goodshepherdlowell.org/bibrdgck.pdf>

Btw. [Augustine of Hippo](#) also used the Memory-Palace Technique. [Matteo Ricci](#) as well used the Memory-Palace technique to memorize the Bible and also learn Chinese quickly.

You may want to create a separate memory palace for each book of the Bible. How to create a memory Palace? See here for more info

Memorize James VERY Fast

Source: <http://www.afathersdream.com/bible/>

The Bible

Using [mnemonics](#) to memorize the bible.

For the past year I have been intensely trying to memorize the bible. I can type most of the book of Revelation from memory, however i am having a hard time with verse recall. In other words I need a few words to get me started. During my memorization I would type out the verse address, but they just do not seem to stick. Numbers are just so hard to memorize.

Mnemonics

During my study of trying to find better ways to remember I kept coming across the funny word mnemonics. Basically it is an old word that means using pictures and places to memorize. It turns out our minds are very good at spacial memory, not very good at random memory. Our minds are created to forget. Think of how bad it would be if we remembered everything from every day we ever had and could recall it at random. The good things would be nice to remember, but bad experiences and things that are now meaningless [think algebra] , who wants to remember those? Anyway to make a long story short I decided to try to use mnemonics to help me with verse location.

Animation

I am using short simple animation to try to memorize the book of James. Since it takes quite a bit of time to put these together [a lot longer then I ever imagined] I thought I would share with others who may be like minded. I did find some things on the net on this regard, however they were not in the version I am memorizing [KJV], so I could not use them.

James Chapter 1 Verses 1-27

James Chapter 2 Verses 1-26

James Chapter 3 Verses 1-18

James Chapter 4 Verses 1-17

James Chapter 5 Verses 1-20
